SUMMARY

A computer science graduate with a focus on web development, eager to contribute to a dynamic Organization. With a strong educational background and passion for learning, seeking an entry-level position to apply theoretical understanding and practical experiences.

WORK EXPERIENCE

Front-end Development:
I create interactive interfaces for websites using HTML, CSS, and JavaScript. I have also experience with React to improve user experiences and simplify development, resulting in dynamic and responsive online applications.

Back-end Development:
My current focus is on enhancing my skills in back-end development.

PROJECTS

Landing Pages:
Using Front-end technologies, including HTML, CSS, and JavaScript, I crafted a visually captivating and fully responsive landing page.

Real Time Chat Application Using Node.js and Socket.IO
I developed a chat app using Node.js and Socket.IO. It helps people send messages instantly.

Final Year Project: "Gesture for Motion Recognition Using Python (ML)"
We operate our computers or laptops using gestures that do not need the usage of a mouse or keyboard camera is essential part of this project.

EDUCATION

Bachelors of Computer Science — 2023
Riphah International University, Faisalabad

Intermediate (ICS) — 2019
Tips College, Faisalabad

Matric — 2017
Laboratory High School, Faisalabad

SKILLS

- Front-end Development
- HTML, CSS, Bootstrap
- JavaScript
- React, Redux
- Node, Mongo
